Installing and setting up MetaMask

1. MetaMask is available to download and install on Chrome, iOS, or Android through the (https://metamask.io/).	
2. After downloading and installing the extension, you'll be greeted with the MetaMask welcome page. Click [Get Started] to begin.	
3. If you're creating a new wallet, click the "Create a Wallet" button. You can also import an old wallet using its Secret Recovery Phrase with the "Import wallet" option.	
4. MetaMask will ask you if you'd like to share anonymous usage data with them to help improve the extension. Accepting or refusing this will not affect your MetaMask usage.	
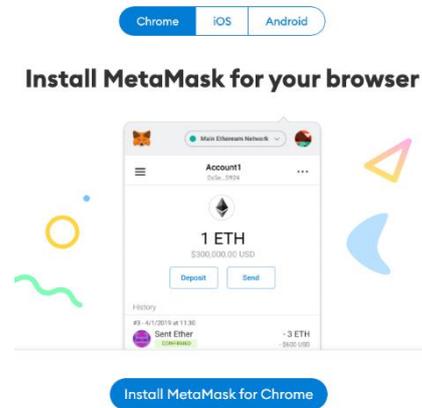

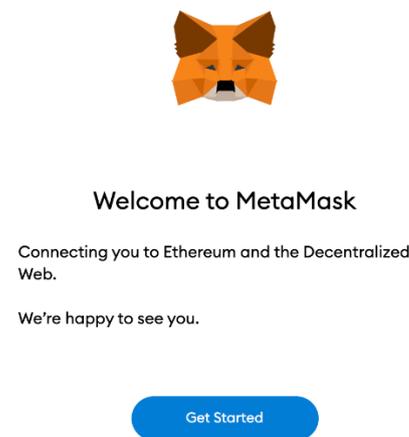

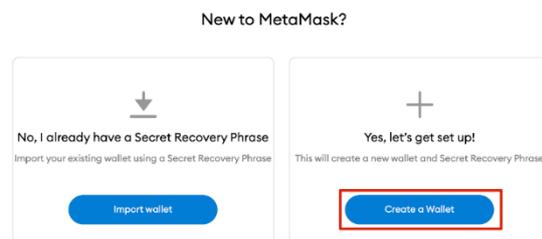

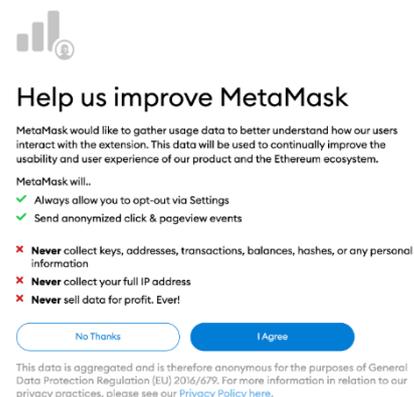

5. Choose a secure password to log in to your wallet from your browser. Note that this is not your Secret Recovery Phrase. The password is a security measure to prevent anyone using your device from accessing your wallet. If you forget your password, you can always access your crypto with your Secret Recovery Phrase.	**Create Password** New password (min 8 chars) •••••••• Confirm password •••••••• ☑ I have read and agree to the Terms of Use **Create**
a. 6. After choosing your password, MetaMask will present you with information regarding your wallet's Secret Recovery Phrase. Make sure to read through it if you aren't familiar with how a crypto wallet works.	
7. You'll now be presented with your Secret Recovery Phrase. Click the lock to view the words and take note of them in the correct order. Keep the phrase in a secure place (preferably offline) and never share it with anyone. This string of numbers is the final backup of your wallet and its contents. Click "Next" to continue.	**METAMASK** < Back **Secret Recovery Phrase** Your Secret Recovery Phrase makes it easy to back up and restore your account. WARNING: Never disclose your Secret Recovery Phrase. Anyone with this phrase can take your Ether forever. 🔒 CLICK HERE TO REVEAL SECRET WORDS Remind me later Next
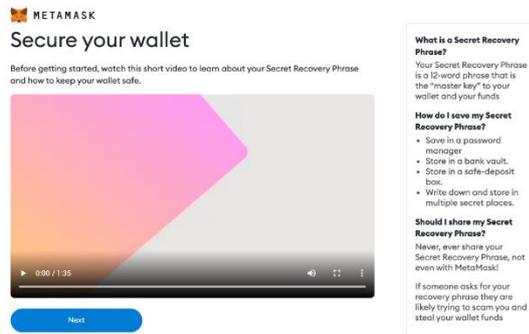

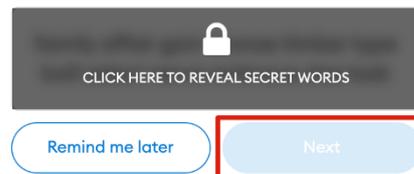

8. You'll now have to repeat your Secret Recovery Phrase by selecting the words at the bottom of the screen in the right order. Click "Confirm" once this is complete.	**Confirm your Secret Recovery Phrase** Please select each phrase in order to make sure it is correct.
9. Your MetaMask wallet will now be set up ready to use. Click "All Done" to view your wallet.	**Congratulations** You passed the test - keep your Secret Recovery Phrase safe, it's your responsibility! **Tips on storing it safely** • Save a backup in multiple places. • Never share the phrase with anyone. • Be careful of phishing! MetaMask will never spontaneously ask for your Secret Recovery Phrase. • If you need to back up your Secret Recovery Phrase again, you can find it in Settings -> Security. • If you ever have questions or see something fishy, contact our support here. *MetaMask cannot recover your Secret Recovery Phrase. Learn more. All Done
10. To make MetaMask easy to access, you can pin it to your Chrome browser by clicking the puzzle icon and pinning MetaMask to the toolbar. After the initial setup, MetaMask will only be connected to Ethereum. Next, we will connect Metamask to Polygon.	Ethereum Mainnet Account 1 0x4D3...a7f0 O Not connected **0 ETH** $0.00 USD Buy Send Swap Assets Activity 0 ETH $0.00 USD Don't see your token? Refresh list or import tokens
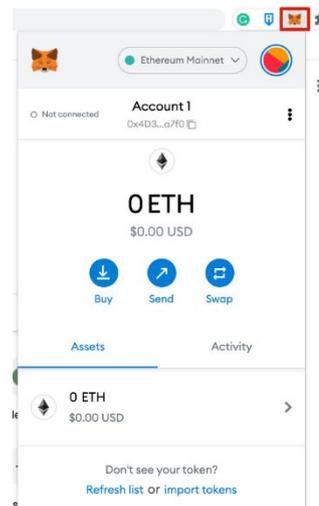

11. You can now copy your public address from the wallet
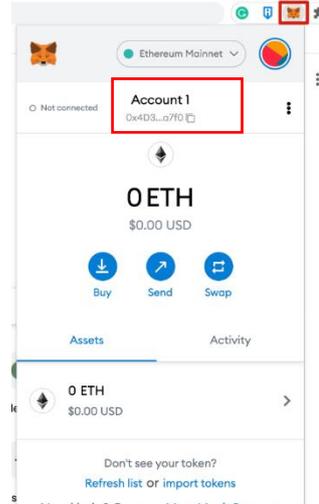

Configuring the wallet – Connecting Metamask to Polygon

1. Adding Polygon support to your wallet involves adding some network details to the extension. First, open MetaMask and click the network dropdown menu.
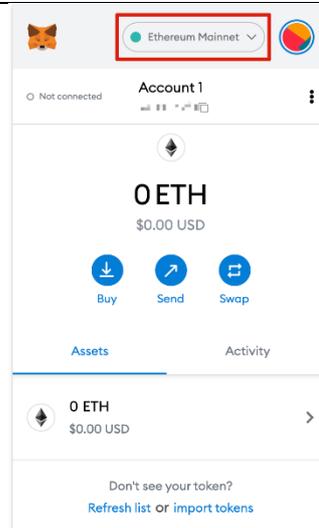

2. Now, click "Add Network" on the pop-up.
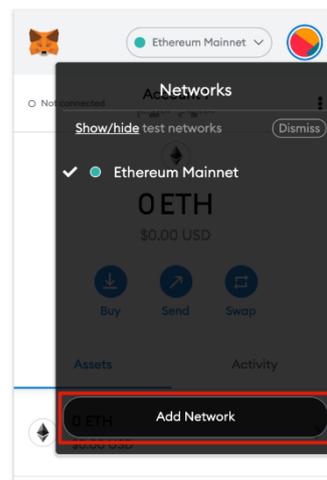

You'll need to add the following details on the "Add a network" page that will open. Click "Save" when you're finished.

- Network Name: Polygon

- New RPC URL: https://polygon-rpc.com/

- Chain ID: 137

- Currency Symbol: MATIC

- Block Explorer URL: https://polygonscan.com/

Networks > Add a network

A malicious network provider can lie about the state of the blockchain and record your network activity. Only add custom networks you trust.

Network Name
Polygon

New RPC URL
https://polygon-rpc.com

Chain ID
137

Currency Symbol (Optional)
MATIC

Block Explorer URL (Optional)
https://polygonscan.com/

Cancel   Save

3. You'll now successfully be connected to the Polygon network.

Transfer the NFT to your wallet

1. Copy your wallet's public address as you will need it later
